Melissa:

Thanks. Can you give a short update before your noon meeting? I only need two sentences updating yesterday's.
I am assuming not much has changed.

Fran

Mike Dorsey said once the orders are signed by both parties they are public and infact this 4th order for dismantling is going through a public comment process.

I will be going to another noon meeting at the WVAWC today.

Subject: WV Spill

Just saw on the news that Gov. Tomlin has ordered all tanks removed from the Freedom Industries site. Do we have any additional information on this order? Does it include anything else about site remediation?

Thanks
